MECHANISM OPERATING INSTRUCTIONS

NOTE: Do not operate the mechanism levers unless properly seated in the chair.

- A. Seat height adjustment
- B. Back angle adjustment
- C. Back height adjustment

ARMS:

* Arm assembly instructions are for Calor chairs purchased with arms only.

RECOMMENDED SEATING POSITION & OPERATING INSTRUCTIONS:

To ensure maximum enjoyment, comfort & safety when using this chair, please familiarise yourself with the following recommended seating positions & operating Instructions as detailed below;

1. Sit on the chair to operate the chair functions
2. Lift the right hand Gas lift lever paddle (A) to lower the seat to the desired seat height position. To raise the seat, lift the right hand Gas lift lever paddle (A) while supporting your own weight off the seat.

NOTE: A suitable seat height position maybe influenced by your working environment e.g. the height of the work surface. Your forearms should be as close to horizontal as possible when working at your work surface & your feet should resting flat on the floor or on a solid surface.

3. While seated in your chair "Lift the back tilt lever (B) to adjust your back angle (forward or rearward) to the desired position. When the desired back angle is found, it is recommended that the back be locked into this position by pressing down on back tilt lever until the lever locks down.

NOTE: The back tilt feature is an important operational feature of the chair to help promote good posture & support. We recommend it's use as often as is necessary when different seating positions are required during the working day.

4. Adjust the back height by untightening the back knob (C) and slowly raise or lower the back (7) to the preferred height. When desired back height is found, tighten back knob (C) firmly.

5. Where Adjustable Arms are fitted to your chair, they can be adjusted in height. To adjust the arm height, lift & hold the arm button and move raise or lower the arm to the desired height.
