A unique anodised look, designed to subtly change in appearance as light conditions change.
Canary (Flat)   Fred (Flat)   Blueit (Matt)   Blue Gold (Flat)   Poyple (Flat)

Sablé™ (Fine Textured Finish)

Sablé Core Ten mimics the textured, rustic and distinctive appearance of corten steel.

Core Ten

Clear Coat (Matt)

Products using Clear Coat will show blemishes and marks from production processes which are fully visible. Variations in material and components are normal and form part of the overall effect. The product has visible weld marks, witness marks (fold and scratch marks from the manufacturing process) and may have traces of rust which is part of the industrial aesthetic and does not affect the quality of the material or its function. Each product will vary and have its own unique characteristics.
* Minimum quantities apply.
