

Winc. Carbon Neutral 20% Recycled Copy Paper.

Winc Carbon Neutral 20% Recycled Copy Paper is an Australian Made paper that offers both quality and value. Due to its high whiteness and smooth texture this product will produce professional standard documents and is perfect for high speed copying, colour printing, double sided printing and both text and graphics. It is ideal for use in copiers, laser printers, inkjet printers and fax machines. Winc carbon neutral 20% recycled is produced from 80% Elemental Chlorine Free (ECF) pulp along with 20% Post-Consumer waste (PCW) recycled pulp and is Acid Free with archival properties of 200+ years. PEFC® certified and A4, A3 are Carbon Neutral.

Certifications and Logos

Carbon Neutral

Carbon Neutral certified under the Climate Active, Carbon Neutral standard which is administered by the Australian Government.

Carbon Neutral certification requires all cradle to grave emissions to be measured and reduced where possible. Remaining emissions are offset, independently audited and publicly reported.

All offsets are Australian Government approved.

PEFC

Programme for the Endorsement of Forest Certification (PEFC) is a certification that assures buyers that the wood and paper products they are purchasing comes from forests that comply with in-country sustainable forestry standards approved by an international body.

ISO 14001

An independent audit that meets the environmental management systems standard set by the International Organization for Standardization (ISO).

Made in Australia

Made in Australia by Australian Papers Maryvale Mill in Victoria.

Product Details

GSM	80
CIE Whiteness	160
Opacity	92%
Moisture content	4.5%
Thickness	104 microns
