

Color Copy. Original Carbon Neutral Copy Paper.

No.1 digital colour printing paper. Color Copy original is the leading digital colour printing paper. Color Copy's specially treated surface allows high toner adherence and more vivid inkjet printing results, ensuring trouble free runnability and processing and delivering the "benchmark" for colour reproduction. Color Copy is ideally suited for colour laser printing and now available with ColorLok® technology for more vivid colours, bolder blacks and faster drying on inkjet printers. Color Copy is made from Elemental Chlorine Free (ECF) pulp, FSC certified and Carbon Neutral.

Certifications and Logos

Climate Partner

Climate Partner are Europe's leading business solution provider for climate protection. All emissions caused by the paper's production and transport are compensated by additional high-quality climate protection measures. This means all direct and indirect greenhouse gas emissions associated with the product's life cycle have been accounted, reduced and then offset. For more information visit climatepartner.com

FSC®

Recognition that the product has been certified by the Forest Stewardship Council®. This ensures that the FSC® certified materials within the paper can be verified as being from responsible sources which means that environmental and social benefits are maintained.

ISO 14001

An independent audit that meets the environmental management systems standard set by the International Organization for Standardization (ISO).
